EDUCATION

St. Francis Institute of Technology Mumbai, India
Bachelor of Technology in Computer Engineering — CGPA: 9.55/10.0 *Sept 2024 – Oct 2028*
- First Year CGPA: 9.2/10.0 — Third Semester CGPA: 9.55/10.0
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Web Technologies

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, SQL
Frontend Development: HTML5, CSS3, React.js, Vite, Responsive Design
Backend Development: Node.js, Express.js, RESTful APIs
Databases: MongoDB, MySQL
Tools & Technologies: Git, GitHub, Power BI, Postman, VS Code
Core Competencies: Full-Stack Development, Problem Solving, Data Structures & Algorithms

PROJECTS

Wanderlust - Airbnb Clone | *Node.js, Express.js, MongoDB, EJS, Bootstrap* 2024
- Developed a full-stack vacation rental platform with user authentication, authorization, and session management using Passport.js
- Implemented CRUD operations for property listings with image upload functionality and integrated map-based location services
- Built review and rating system with user validation, allowing authenticated users to add, edit, and delete reviews
- Designed RESTful API architecture with Express.js and MongoDB for efficient data management and scalability
- Enhanced security with input validation, error handling middleware, and protected routes for authorized actions

Weather Application | *React.js, Vite, REST API, CSS3* 2024
- Built a responsive weather application using React and Vite for optimized build performance and fast hot module replacement
- Integrated third-party weather API to fetch and display real-time weather data including temperature, humidity, and forecasts
- Implemented dynamic UI updates based on API responses with error handling for invalid city searches
- Designed modern, mobile-responsive interface with CSS3 ensuring seamless user experience across devices

Portfolio Website | *HTML5, CSS3, JavaScript* 2024
- Created a professional portfolio website showcasing projects, skills, and achievements with clean, modern design
- Implemented smooth scrolling navigation, responsive layout, and interactive elements using vanilla JavaScript
- Optimized website performance and ensured cross-browser compatibility for enhanced user experience

CERTIFICATIONS & TRAINING

- Power BI Micro Course - Data Visualization and Business Intelligence
- Git - Skill Up - Version Control and Collaborative Development

ACHIEVEMENTS

- Achieved 9.55 CGPA in Third Semester, demonstrating consistent academic excellence in Computer Engineering
- Secured 9.2 CGPA in First Year, ranking among top performers in the cohort
- Completed multiple full-stack projects independently, showcasing strong self-learning and problem-solving abilities
